

INTERNATIONAL TALENT SUPPORT –

JEWELRY *design competition* IN TRIESTE

design briefing WITH SWAROVSKI ELEMENTS

Currently a multitude of exotic influences is having a strong impact on the fashion and design world. This countermovement opposes the effects of Globalization and Mass Markets where everything looks the same.

Instead, we now seek to highlight our heritage and tradition with a new design language. This rich cultural world mix influences patterns, materials and designs. We see new looks such as Kimonos made of typical African wax prints or Bavarian Dirndls made of Indian Saris.

WHICH INSPIRATION DO YOU FIND IN YOUR PERSONAL BACKGROUND?

The goal of the ITS JEWELRY project is to create new, wearable pieces of crystal jewelry using SWAROVSKI ELEMENTS, with a mix of materials inspired by ethnic and tribal influences.

Think of SPARKLE – GLAMOUR – ETHNO – EXOTIC – HERITAGE – OPULENCE – MATERIAL MIX – NATURE – WORLD TRAVELLER - CRYSTAL.

SWAROVSKI ELEMENTS

For this competition, SWAROVSKI ELEMENTS will provide a special assortment of Crystal Stones and Semi-finished Products in selected colors and shapes of which the participants are free to choose for their designs.

The participants should present three sketches outlining a necklace, a bracelet and a third component free of choice.

All designs must be new and original and can never have won any previous competition. Each entry must be accompanied by a description of the design and materials used.

criteria

- ❖ Create a new glamorous ethno look by mixing opaque materials such as leather, wood, straw, seeds, plastic and metal with sparkling SWAROVSKI ELEMENTS.
- ❖ The SWAROVSKI ELEMENTS special project is a compulsory part of your entry. Applications must include both the enrolled collection for ITS JEWELRY and the three sketch proposals described above.
